

STOP MANAGING FILES.
START MANAGING BENEFITS.

Clarity Comprehensive API Integrations

Connect benefits administration with the payroll, HRIS and benefits systems you already use, replacing manual data exchanges with a simpler, automated experience.

BENEFITS ADMINISTRATION WITHOUT THE BUSYWORK

Traditional administration can require HR and payroll teams to manage enrollment files, eligibility updates, contribution files, corrections and renewal reconciliation. Clarity changes that by securely connecting the systems that already hold the data.

CONNECT FASTER

Standardized connections to hundreds of leading payroll, HRIS and benefits administration platforms.

REDUCE MANUAL WORK

Automate the exchange of demographics, eligibility, enrollment, qualifying event, payroll contribution and COBRA-related data.

MAKE RENEWALS EASIER

Keep critical information synchronized throughout the year so renewal requires less cleanup and reconciliation.

Clarity
BENEFIT SOLUTIONS™

IMPROVE ACCURACY

Reduce duplicate entry and the opportunities for outdated, missed or incorrect information.

SUPPORT COMPLIANCE

More timely data helps support time-sensitive processes such as COBRA administration.

IMPROVE THE EXPERIENCE

Fewer administrative handoffs can mean faster updates and fewer downstream issues for employees.

A DIFFERENT APPROACH TO INTEGRATION

TRADITIONAL INTEGRATION	CLARITY COMPREHENSIVE API INTEGRATIONS
• Custom project	• Standardized connection
• Weeks or months to establish	• Connection can be established in minutes
• Ongoing file feeds	• Ongoing synchronization
• Manual administration	• Simplified administration

YOU CONNECT. WE TAKE IT FROM THERE.
